Get Set for The Code Book B is the second in a set of three primers to the popular Explode The Code series. This series introduces beginning readers to consonant sounds and letter formation in preparation for more complex sound-symbol relationships introduced in the Explode The Code series. Get Ready for The Code, Get Set for The Code, and Go for The Code integrate auditory, visual, and kinesthetic exercises and activities to develop both phonemic and phonological awareness.

The following sample lesson introduces the consonant p and is designed to promote letter recognition and formation, phonemic awareness, and sound-symbol relationships. Try this lesson today with an individual student, a small group, or the entire class. Get Set for The Code can be incorporated into almost any early reading program.
