

# My Friendship Bracelet Maker®

Make your first Stripe pattern bracelet with My Friendship Bracelet Maker! Just follow these simple steps!

- 1 Flip up the device holder. Press down on the head of the butterfly clip and slide to top. Secure the peg underneath the clip into the top heart on the green loom.

- 2 Pick five threads in your favorite colors.

- 3 Align all the strings in a group, fold in half and tie a knot 1/2 inch from center of the fold forming a loop.

- 4 Attach your threads to the Friendship Bracelet Maker using enclosed Butterfly Clip. Separate strings by placing one string in each slot.

- 5 Hold string #1 with your right hand and string #2 with your left hand.

- 6 While holding string #1 and #2 form a right-handed double knot (see reverse for directions). After double knot is complete, move string #2 into slot 1 while holding string #1 in right hand. Take string #1 and make the same double knot around string #3. After double knot is complete move string #3 into slot 2.

Continue to tie double knots on strings #4 thru #10 with string #1 until you finish the row. When you have completed tying the double knot on string #10, place string #1 into slot 10 on your Friendship Bracelet Maker. Now that you have finished a row, start step #5 again with your new string #1.

- 7 When you think your bracelet is long enough to fit around your wrist, unclasp it and wrap around wrist, if it's right go to step 7... if it's too short, continue to knot.
- 8 Take your bracelet off the Friendship Bracelet Maker and tie two basic knots at the end of your threads... then loop it over your wrist and voilà! You are now ready to wear or share your fabulous, new Friendship Bracelet!

**Warning!** Not suitable for children under 36 months. Long cord. Strangulation hazard.

# My Friendship Bracelet Maker®

## Right-Hand Double Knot Instructions:

### Step 1

Take string 1 and cross over string 2 forming a number "4."

### Step 2

Take string 1 and go under string 2 then back up over string 1.

### Step 3

Pull string 1 back towards Clip until it's tight.

*Helpful tip: while doing this step hold string 2 tight towards your body.*

### Step 4

Repeat step 1.

### Step 5

Repeat step 2.

### Step 6

Repeat step 3.
