

# DAILY MIND BUILDERS 27

Read the true story below and make an inference based on the evidence in the story. List any of the key words in the story that led to your conclusion.

## AN INDECENT CHICKEN?

One of the major costs of processing chicken for sale is the expense of removing the feathers before the chickens can make it to our dinner plate. Most people prefer eating their chicken without having to pick feathers out of their teeth. Scientists set to work and in 1975 they came up with a featherless chicken. But this new type of naked chicken never caught on with chicken growers because they soon were presented with another problem that added to their costs. Can you conclude what the new problem was?
