## *The Bride Comes to Yellow Sky*

by Stephen Crane (1871-1900)

### ABOUT THE AUTHOR

Although Stephen Crane is best known for his Civil War novel, *The Red Badge of Courage*, he was a serious journalist, poet, and short-story writer as well. Crane risked his life as a war correspondent in both the Greco-Turkish War and the Spanish-American War (1898). His poetry, such as "War is Kind," employed free verse and rendered him a pioneer of modern verse. He wrote many short stories and sketches. Whatever the genre, Crane often wrote compassionately about injustice and suffering, an attitude he acquired from his idealistic parents. Crane possessed the remarkable ability to write convincingly and powerfully, whether or not he had actually experienced the situations described. He was able to turn the events of his own hungry and penniless years into powerful realistic fiction, and he wrote *The Red Badge of Courage* before he had ever witnessed a battle.

Crane is hailed as an important contributor to realism, an artistic movement that focuses on the details of everyday life. Although he died of tuberculosis at the age of 29 at the beginning of the 20th century, his writing is associated with the literary movements of the decades that follow.

### ABOUT THE SELECTION

Stephen Crane is a member of the school of psychological realism that focuses on human character and motivation rather than on plot. His works reflect an emphasis on human relationships under stress and employ vivid imagery and powerful figurative language. Common themes in Crane's works are feelings of sympathy and empathy as well as the need to override one's own needs in favor of the common good.

The spirit of the old West, colorful and vibrant, leaps out of Crane's story. How does Crane manage to portray his characters so vividly? His masterful use of figurative language is an important ingredient in the story's success. Although this particular piece does not directly address brutal suffering or human cruelty, it does adhere to the tenets of realism in its attention to small detail. "The Bride Comes to Yellow Sky," with its delightful mingling of humor and suspense, is considered one of Crane's finest short stories.

THE BRIDE COMES TO YELLOW SKY 3

### Motivational Material

"The Bride Comes to Yellow Sky" is lighthearted in tone, evoking O. Henry's humorous tales of a bygone era.

## FOCUS: FIGURATIVE LANGUAGE

What does this description tell us about the character?

I  
① The great Pullman\* was whirling onward with such dignity of motion that a glance from the window seemed simply to prove that the plains of Texas were pouring eastward. Vast flats of green grass, dull-hued spaces of mesquite\* and cactus, little groups of frame houses, woods of light and tender trees, all were sweeping into the east, sweeping over the horizon, a precipice.

A newly married pair had boarded this coach at San Antonio. The man's face was reddened from many days in the wind and sun, and a direct result of his

new black clothes was that his brick-colored hands were constantly performing in a most conscious fashion. From time to time he looked down respectfully at his *attire*. He sat with a hand on each knee, like a man waiting in a barber's shop. The glances he devoted to other passengers were *furtive* and shy.

The bride was not very young. It was quite apparent that she had cooked, and that she was expected to cook, dutifully.

They were evidently very happy. "Ever been in a parlor-car before?" he asked, smiling with delight.

"No," she answered. "I never was. It's fine, ain't it?"

### HELPFUL DEFINITIONS

**Pullman** — passenger train with a dining car and comfortable sleeping accommodations.

**mesquite** — thorny shrub common in the southwest.

## 4 IMPLICATIONS OF LITERATURE / UNIT ONE

- ① Crane uses several viewpoints and three settings — the train, the Weary Gentleman saloon, and the streets of the town — to tell his story. Help students identify these important elements as they occur.

"Great! And then after a while we'll go forward to the diner and get a big lay-out. Finest meal in the world. Charge a dollar."

"Oh, do they?" cried the bride. "Charge a dollar? Why, that's too much — for us — ain't it, Jack?"

"Not this trip, anyhow," he answered bravely. "We're going to go the whole thing."

Later, he explained to her about the trains. "You see, it's a thousand miles from one end of Texas to the other, and this train runs right across it and never stops but four times." He had the pride of an owner. He pointed out to her the dazzling fittings of the coach, and in truth her eyes opened wider as she contemplated the sea-green figured velvet,\* the shining brass, silver, and glass, the wood that gleamed as darkly brilliant as the surface of a pool of oil. At one end a bronze figure sturdily held a support for a separated chamber and at convenient places on the ceiling were frescoes\* in olive and silver.

To the minds of the pair, their surroundings reflected the glory of their marriage that morning in San Antonio. This was the environment of their new estate, and the man's face in particular beamed with an elation that made him appear ridiculous to the negro porter. This individual at times surveyed them from afar with an amused and superior grin. On other occasions he bullied them with skill in ways that did not make it exactly plain to them that they were being bullied. He subtly used all the manners of the most unconquerable kind of snobbery. He oppressed them, but of this oppression they had small knowledge, and

they speedily forgot that infrequently a number of travelers covered them with stares of *derisive* enjoyment.

"We are due in Yellow Sky at 3.42," he said.

"Oh, are we?" she said, as if she had not been aware of it. To evince surprise at her husband's statement was part of her wifely *amiability*. She took from a pocket a little silver watch, and as she held it before her and stared at it with a frown of attention, the new husband's face shone. ②

"I bought it in San Anton' from a friend of mine," he told her gleefully.

At last they went to the dining-car. Two rows of negro waiters in glowing white suits surveyed their entrance with the interest and also the *equanimity* of men who had been forewarned. The pair fell to the lot of a waiter who happened to feel pleasure in steering them through their meal. He viewed them with the manner of a fatherly pilot, his countenance radiant with benevolence. The patronage entwined with the ordinary *deference* was not plain to them. And yet as they returned to their coach they showed in their faces a sense of escape.

To the left, miles down a long purple slope, was a little ribbon of mist where moved the keening\* Rio Grande.\* The train was approaching it at an angle, and

Why is the couple unaffected by the condescending attitude of those around them?

Why isn't a dollar too much on "this trip"?

Why does his face shine as she checks the time?

Why does the beauty of the train seem particularly appropriate to the newly married couple?

How is the waiter's benevolence less than kind?

Why isn't a dollar too much on "this trip"?

A. He feels they can be somewhat extravagant on their wedding trip.

Why does the beauty of the train seem particularly appropriate to the newly married couple?

A. It seems right to be surrounded with beauty after the morning's special event. The train, to them, is a continuation of the wondrous journey that began with their marriage.

Why is the couple unaffected by the condescending attitude of those around them?

A. The two are obviously rustic and therefore objects of contempt to more sophisticated travelers. The couple is oblivious to the ridicule of the other passengers, and protected by their bubble of happiness.

Why does his face shine as she checks the time?

A. As we will see in the next paragraph, the watch is his wedding gift to her.

How is the waiter's benevolence less than kind?

A. He is patronizing, mocking their inexperience in luxury travel.

## HELPFUL DEFINITIONS

**figured velvet** — embossed or patterned velvet.

**frescoes** — paintings done on moist plaster.

**keening** — wailing.

**Rio Grande** — river forming part of the border between the United States and Mexico.

② Note the role-playing of the past few paragraphs. Jack, his bride, and the porter each assume roles. Jack acts as wise mentor to his new bride, explaining their surroundings. The bride is an eager and admiring disciple. The porter acts smugly superior to these two happy passengers.

What deed causes his feelings of guilt?

A. He feels guilty about the fact that he married without telling his friends and peers in the community.

What is the "unspoken form"?

A. The "unspoken form" is the implicit code of behavior by which Potter lives; he feels that he has violated his own code of behavior by marrying without notifying the residents of Yellow Sky.

What deed causes his feelings of guilt?

What is the "unspoken form"?

the apex was Yellow Sky. Presently it was apparent that as the distance from Yellow Sky grew shorter, the husband became commensurately restless. His brick-red hands were more insistent in their prominence. Occasionally he was even rather absent-minded and far-away when the bride leaned forward and addressed him.

As a matter of truth, Jack Potter was beginning to find the shadow of a deed weigh upon him like a leaden slab. He, the town marshal of Yellow Sky, a man known, liked, and feared in his corner, a prominent person, had gone to San Antonio to meet a girl, and there, after the usual prayers, had actually induced her to marry him, without consulting Yellow Sky for any part of the transaction. He was now bringing his bride before an innocent and unsuspecting community.

Of course, people in Yellow Sky married as it pleased them in accordance with a general custom; but such was Potter's thought of his duty to his friends, or of their idea of his duty, or of an unspoken form which does not control men in these matters, that he felt he was heinous. He had committed an extraordinary crime. Face to face with this girl in San Antonio, and spurred by his sharp impulse, he had gone headlong over all the social hedges. At San Antonio he was

like a man hidden in the dark. A knife to sever any friendly duty, any form, was easy to his hand in that remote city. But the hour of Yellow Sky, the hour of daylight, was approaching.

He knew full well that his marriage was an important thing to his town. It could only be exceeded by the burning of the new hotel. His friends would not forgive him. Frequently he had reflected on the advisability of telling them by telegraph, but a new cowardice had been upon him. He feared to do it. And now the train was hurrying him toward a scene of amazement, glee, reproach. He glanced out of the window at the line of haze swinging slowly in toward the train.

Yellow Sky had a kind of brass band which played painfully to the delight of the populace. He laughed without heart as he thought of it. If the citizens could dream of his prospective arrival with his bride, they would parade the band at the station and escort them, amid cheers and laughing congratulations, to his adobe\* home.

He resolved that he would use all the devices of speed and plains-craft\* in making the journey from the station to his house. Once within that safe citadel,\* he could issue some sort of a vocal bulletin, and then not go among the citizens until they had time to wear off a little of their enthusiasm.

The bride looked anxiously at him. "What's worrying you, Jack?"

He laughed again. "I'm not worrying, girl. I'm only thinking of Yellow Sky."

A sense of mutual guilt invaded their minds. The traitor to the feelings of Yellow Sky narrowly watched the speeding landscape. "We're nearly there," he said.

## A CLOSER LOOK

Appropriately for a Western story, Crane uses a metaphor based on horseback riding: **spurred** — driven on — by his impulse, he went **headlong** — jumped recklessly — over the social **hedges** — the obstacles — in his way. The marshal has overcome his perceived social obligations and married without notifying his community.

## HELPFUL DEFINITIONS

**adobe** — building material of sun-dried earth and straw.

**plains-craft** — the specialized knowledge of an expert tracker.

**citadel** — fortress.

③ This is an apt description of the ways of a small town, in which anything that happens out of the ordinary, whether dangerous or not, is subject to the same gossip and scrutiny. This type of description adds humor to the story as well. Encourage students to find other examples of Crane's dry humor.

Presently the porter came and announced the proximity of Potter's home. He held a brush in his hand and, with all his airy superiority gone, he brushed Potter's new clothes as the latter slowly turned this way and that way. Potter fumbled out a coin and gave it to the porter as he had seen others do. It was a heavy and muscle-bound business, as that of a man shoeing his first horse.

The porter took their bag, and as the train began to slow they moved forward to the hooded platform of the car. Presently the two engines and their long string of coaches rushed into the station of Yellow Sky.

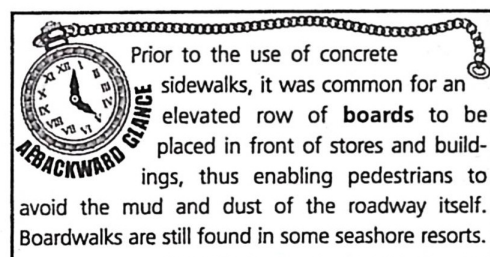

"They have to take water here," said Potter, from a constricted throat and in mournful cadence as one announcing death. Before the train stopped his eye had swept the length of the platform, and he was glad and astonished to see there was none upon it but the station-agent, who, with a slightly hurried and anxious air, was walking toward the water-tanks. When the train had halted, the porter alighted first and placed in position a little temporary step.

"Come on, girl," said Potter hoarsely. As he helped her down they each laughed on a false note. As they slunk rapidly away, his hang-dog glance perceived that they were unloading the two trunks, and

also that the station-agent far ahead near the baggage-car had turned and was running toward him, making gestures. He laughed, and groaned as he laughed, when he noted the first effect of his marital bliss upon Yellow Sky. He motioned to his wife and they fled. Behind them the porter stood chuckling *fatuously*.

## II

The California Express on the Southern Railway was due at Yellow Sky in twenty-one minutes. There were six men at the bar of the Weary Gentleman saloon. One was a drummer\* who talked a great deal and rapidly; three were Texans who did not care to talk at that time; and two were Mexican sheepherders who did not talk as a general practice in the Weary Gentleman saloon. The bar-keeper's dog lay on the boardwalk that crossed in front of the door. His head was on his paws, and he glanced drowsily here and there with the constant *vigilance* of a dog that is kicked on occasion. Across the sandy street were some vivid green grass plots, so wonderful in appearance amid the sands that burned near them in a blazing sun that they caused a doubt in the mind. They exactly resembled the grass mats used to represent lawns on the stage. At the cooler end

drummer — a traveling salesman.

**HELPFUL DEFINITIONS**

Why does Potter laugh?

Why does Potter laugh?  
A. Potter laughs in nervous apprehension, as he sees the agent's agitation. He assumes it is in response to the news of his marriage.

How are the customers in the saloon characterized?

A. Crane characterizes the customers by describing their speech patterns. The salesperson talks a great deal; it is part of his business manner to be friendly and talkative. The Texans are characterized as taciturn; they do not wish to chat with a stranger. The Mexicans are characterized as somewhat nervous as they sit silently, afraid to talk in the Texans' presence. Ironically, the Mexicans are considered foreigners in a land that once belonged to them.

How are the customers in the saloon characterized?

④ After students have completed the story, you might want to refer to this paragraph to indicate that Crane foreshadows that the station-master is hurrying to bring Potter news of Scratchy's rampage.

⑤ Explain that Part II occurs almost simultaneously with Part I.

## LITERARY CRITIQUE

1. A character's personality can be greatly altered by his surroundings. Crane reveals Jack Potter's character set against two very different backdrops. What are they? How does he conduct himself against each backdrop?
2. Crane does not name his main character immediately. Why not? The bride, important enough to find herself in the story's title, is never named at all. Why do you think this is so?
3. In the description of Scratchy Wilson's rampage, Crane uses a good deal of **personification**. Find two examples. Why is this form of figurative language particularly suitable for the drunkard?
4. Consider the mood of the story. Is the tone meant to inspire fear or to amuse? How can you tell?
5. How does the confrontation between Potter and Scratchy end? What brings about the conclusion? Did you anticipate this conclusion? Why or why not?

## WRITING WORKSHOP

In "The Bride Comes to Yellow Sky," a heated conflict is resolved in a surprising way. Think of a problem or difficult situation you or someone you know has encountered. Try to think of one or more innovative ways the problem or situation could have been better handled. In a three-to-four-paragraph personal essay, state the problem and present possible solutions.

## JOURNAL WORKSHOP

The title character, Potter's bride, is thrust into an unexpected situation, but her reactions are not overtly stated in the text. Create a journal entry in which you express the bride's feelings as she watches the confrontation between Potter and Scratchy Wilson.

## LANGUAGE ARTS WORKSHOP

1. Crane makes potent use of imagery to tell his tale. Read each quotation below. What does the author mean to convey? Replace each simile with a comparison of your own, mirroring the original idea of the author. Example: At San Antonio he was like a man hidden in the dark. At San Antonio he was one raindrop in a storm of humanity. (Both sentences emphasize his anonymity.)
  - a. He walked with the creeping movement of a midnight cat.
  - b. Immediately a solemn, chapel-like gloom was upon the place.
  - c. The bar-keeper, moving like a ghost, handed him a glass and a bottle.

THE BRIDE COMES TO YELLOW SKY 13

## LITERARY CRITIQUE

1. Jack Potter is seen both on the Pullman train, and back home in Yellow Sky. On the train with his new bride, Potter is self-conscious and somewhat awkward. The passengers, and even the porters and waiters, who technically hold subservient positions, revel in his insecurity and act in a lordly fashion. Back home, Potter is desperately sought to take on Scratchy. He is admired and respected, and he acts with bravery and confidence in his dealings with Scratchy.

2. On the train, Potter is just another passenger, but in his hometown his name represents a prominent personage. The bride, whose arrival is powerful enough to disarm a drunkard's pistol, is important only as the new wife of the town marshal; her personality and identity matter little, if at all. The bride, merely by her presence, serves as a catalyst in the resolution of the feud.

3. Some examples of personification used in describing the rampage are: a. The calm adobes preserved their demeanor at the passing of this small thing in the middle of the street. b. Potter's house presented the same still, calm front as had the other adobes."

Endowing inanimate objects — in this case, the adobes — with human qualities is particularly suitable when describing a drunkard. When under the influence, a person may find nothing amiss in conversing with or interacting with objects, and in expecting a response.

4. Crane's story is meant to entertain, rather than frighten, the reader. One indication of this is the exaggeration of his descriptions. For example, Scratchy's

fusillade of bullets is described as follows: "To the distance there should have gone the sound of a tumult like the fighting of two hundred Mexicans." The result of such embellishment is that Scratchy becomes less realistic, more cartoonlike.

In addition, the author tells us that Scratchy "comfortably fusilladed the windows of his most intimate friend. The man was playing with this town. It was a toy for him." The story's end follows through with this concept of a game. A sense of play-acting prevails.

5. Scratchy backs down, deflated, when he discovers that his enemy is now a married man. Students may respond that the conclusion is somewhat predictable because of the humor throughout. Conversely, students may respond that such an outlandish conclusion, while fun, could certainly not be anticipated.

## *The Use of Force*

by William Carlos Williams (1883-1963)

### ABOUT THE AUTHOR

Though educated in Europe, William Carlos Williams spent most of his adult life as a practicing pediatrician in his hometown of Rutherford, New Jersey. By 1909, Williams began to publish his poetry and prose; he was recognized as a keen observer of American life and a brilliant transcriber of American speech and **idioms**.

His stress on the simple realities of daily American life set him apart from his more complex American literary contemporaries whose works were filled with complex allusions to art, religion, history, and other languages. Thus, Williams' clear prose and poetry, like the works of Mark Twain, reflect the simpler, straightforward viewpoint of the average American.

Williams' prose and poetry now fill thirty-seven volumes. In 1963, he was awarded the prestigious Pulitzer Prize for poetry. Since World War II, Williams' influence on subsequent generations of poets has been strong, as they followed his example by seeking clearer forms of language to express their own fresh visions of reality.

### ABOUT THE SELECTION

Williams' work reexamines standard literary forms to create fresh viewpoints and clearer writing formats. He intentionally eliminates quotation marks in the dialogue between different characters; this technique forces the reader to read the text very carefully to separate the exposition from the dialogue.

The dominant themes in Williams' works are clarity, objectivity, and authority; these themes also parallel early 20th-century science. As a physician, Williams' first principle is clarity, because a doctor must be able to observe his/her patient with a clear eye. As a writer, Williams uses his trained scientific eye to examine the human reality of daily life around him. Thus, as both a writer and a doctor, Williams seeks clarity through "theaters of proof." As a final result, both the poet and medical practitioner find the truth through clarity of understanding; he uses the scalpel of precise language to express his themes, and he employs scientific processes to diagnose and treat his patients' ailments.

The story centers on a physician who is making a house call at the home of a poor immigrant family. In the course of examining the young patient, the doctor and the child enter into a battle of wills. This battle of wills introduces the reader to the literary focus, the **extended metaphor**.

### Motivational Material

The **extended metaphor** in "The Use of Force" is the concept of war and personal battle. The story focuses on the battle of wills between a doctor and his patient, a young girl who fights fiercely to prevent the doctor from discovering her terrible secret, her sore throat. Throughout the text, war terms are used to reinforce the extended metaphor, including "cold, steady eyes"; "then the battle began"; "ensuing struggle"; "You're killing me"; "She had fought valiantly." Ask students to find additional examples.

Other battle metaphors include "trial shot"; "He won't hurt you"; "...hands clawed instinctively for my eyes"; "insane fury of effort bred of her terror of me"; "I ordered"; "She fought ... desperately"; "blind fury"; "I overpowered"; "to escape just such an outcome"; "defensive...attacked."
