## **Discussion**

- 1. What was life like in 1880? Talk about how moving and setting up a house would be different then.
- 2. Look at a map. Locate Maine and Colorado. Discuss how the family might have traveled and how long the trip might have taken.
- **3.** Talk about the reasons Noah's parents probably had for wanting a good education for Noah.
- **4.** Reread the final sentence in the chapter. This is a sentence to remember. Noah believes the stars are unimportant and he believes reading is unimportant. Do you think he is correct about *either*, *both*, or *neither*? Explain.
