Numbers to 1,000

Essential Question: How can you count, read, and show numbers to 1,000?

Digital Resources

Look at the model of a bird! How many pieces do you think it took to make it?

What else could you make with the same pieces?

Wow!
Let's do this project and learn more.

enVision® STEM Project: Breaking Apart and Putting Together

Find Out Collect sets of building blocks. Take turns and work together. Use the blocks to build a model. Then take that model apart and use the same blocks to build a different model.

Journal: Make a Book Show your models in a book. In your book, also:

- Tell how many pieces you used to build your models.
- Show how to use place-value blocks to model different names for the same number.

How can you save money you
earn or find? What are some
good places to put your money?
What are some good ways to
sort your money?

I can ...

model with math to solve a problem that involves skip
counting by 5s, 10s, and 100s.

Lesson 9-1

Understand Hundreds

What is another way to show 100?
Draw a picture and explain.

I can ...

understand place value and
count by hundreds to 1,000.

I can also use math
tools correctly.

Way 2

10 ones make 1 ten.

10 tens make 1 hundred.

10 hundreds make 1 **thousand**.

What is the number?

900 equals 9 hundreds, 0 tens, and 0 ones.

You can count by **hundreds** to 1,000!

Convince Me! 10 ones make 1 ten. 10 tens make 1 hundred. 10 hundreds make 1 thousand. Do you see a pattern? Explain.

☆ **Guided Practice** ☆

Complete each sentence. Use place-value blocks and your workmat to help.
