

SUMMARY OF ART SUPPLIES REQUIRED FOR ATELIER

The supply list presented on the following two pages is provided as a planning aide. It presents a tabular summary of the primary supplies and materials required for each level and module of the Atelier program. To make use of the list, find the column for the level and module of Atelier that you will be teaching. Any material in that column that is identified by an X will be needed during the teaching of that module. Where a number occurs (paper products), that is the number of sheets of that item that will be required.

The supplies for Atelier have purposely been kept as simple as possible in order to minimize cost and to maximize availability. In most cases, they will be available locally; or, if not available locally, they will be available by mail order through one of many art or education supply distributors.

We also offer a Basic Art Supply Kit (BASK) inexpensively through Atelier. This kit contains all the supplies common to every Atelier level and module. To complete each level, the BASK will need to be augmented only by a few additional supplies special to that level. For more information, contact us at arts@homeschoolart.com or toll-free at 888-760-ARTS.

Two categories of materials are not included on the list:

1. Materials that would commonly be found in most homes or could be easily obtained – for example, fabric scraps, egg cartons, food items, flowers, teddy bears, wood stain, fixatives, paper bags, leaves, string, toys, etc.
2. Materials that are identified as motivational materials. These include things like children's books, pictures, art prints, small models of animals, newspaper clippings, music (CDs or audio tapes), costumes, etc. These materials are recommended and will enhance the performance of the lesson, if available. However, if they are not available, in most cases the videotape lessons will contain similar materials and can be stopped or paused to present an alternative approach to teaching the lesson.

It is recommended that, prior to beginning to teach an Atelier module, you read the materials lists contained in each lesson of the module so that you can identify the motivational materials that will be required. You and your student(s) can then begin collecting these materials so that they will be available for the lesson.

If you teach a group or as part of a team effort, it is more economical to purchase supplies in bulk or large quantities. It is suggested that you store brushes with long handles in old tennis ball cans. Nest water cans. Sponges can be stacked on top of each other in their tray containers. Store sponges and water cans in plastic dishpans. Store pencils, black and colored marking pens upright in tin cans.

PRIMARY MATERIALS REQUIRED FOR THE ATELIER PROGRAM

CATEGORY	ITEM		Item #
PAPER PRODUCTS	White Drawing Paper	12" x 18", 60# (sheets per student)	1
		18" x 24", 60# (sheets per student)	2
