

3. How many groups of four are in 16 turtles?

$$\underline{\hspace{2cm}} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Complete the multiplication sentence to prove your answer.

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{16}$$

4. How many groups of 5 are in 20 circles?

$$\underline{20} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Complete the multiplication sentence to prove your answer.

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{20}$$

5. How many groups of 4 are in 20 squares?

$$\underline{\hspace{2cm}} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Complete the multiplication sentence to prove your answer.

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
