Multiplication Games Instructions

This lapbook provides hand-on practice for multiplication facts 6x6 through 12x12 while providing lots of fun with space aliens!

Fact Cards are the cards that contain all of the multiplication facts. Once these are cut out, just keep them stored in your Storage Pockets until ready to use.

There are two different types of pockets:

- storage pockets
- answer pockets.

Storage pockets are named Family Storage Pockets and is where you will keep your fact cards (by family) when not in use. Fact cards that start with the same number are considered in the same family. For example, 9x9, 9x10, 9x11, 9x12 and so forth are in the same family-the 9 family.

Answer pockets have a space scene and a number (answer) on each. After your child figures out the answer on a fact card, he/she slides it into the correct answer pocket.

Folder 1 contains fact families 6 and 7

Folder 2 contains fact families 8 and 9

Folder 3 contains fact families 10 and 11 and also 12x12. (The other 12s are covered in the other families, such as 7x12, 8x12, etc.)

Extra Game Idea!

This game is played by two students with a deck of cards with the jokers and face cards removed. Students shuffle the deck and deal them all out face down. Each player flips over a card from his or her pile. The first player to call out the correct answer gets to collect the two flipped over cards. If a player calls out the wrong answer, the other player gets the cards. Players continue until all the cards have been flipped over. The winner is the player with the most cards at the end.

We recommend laminating your cards to make them sturdier and to last longer.

Multiplication Facts

Alien-Themed Lapbook

Name _____

Land the rocket on the correct planet by putting the answer cards into the pockets.

Spaceship Multiplication 6's and 7's

$6 \times 6 = 36$

$6 \times 7 = 42$

$6 \times 8 = 48$

$6 \times 9 = 54$

$6 \times 10 = 60$

$6 \times 11 = 66$

$6 \times 12 = 72$

$7 \times 6 = 42$

$7 \times 7 = 49$

$7 \times 8 = 56$

$7 \times 9 = 63$

$7 \times 10 = 70$

$7 \times 11 = 77$

$7 \times 12 = 84$

Folder 1

Cut out booklet as one piece. Fold the back section up and then glue down the flaps to make a pocket. Glue into lapbook. Use this pocket to store your fact cards. Facts that begin with a 6 or 7 will be stored in this pocket.
