A large, stylized, light gray graphic of the word "ZOOM!" with an exclamation mark, slanted upwards to the right, positioned over the bottom right corner of the page.

# Why First Grade Skills?

The engaging activities in this book provide practice of grade-level-appropriate language arts and math skills and concepts. Continued practice helps develop strong understandings necessary for early academic success.

## SKILLS

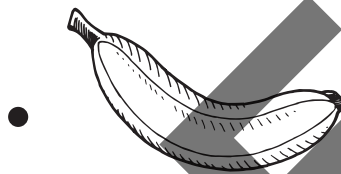

- Colors and shapes
- Sight words
- Categorizing
- Numbers through 100
- Counting by 2s, 5s, and 10s
- Patterns
- Time
- Money
- Multistep problem solving
- Critical thinking

## HOW YOU CAN HELP SUPPORT LEARNING

- Read the directions to your child.
- If something is too challenging, calmly put it aside and revisit it at another time.
- Give hints rather than solutions to particularly tricky problems.
- Ask your child to explain his or her answers.

Draw lines to match the color words to the pictures.  
Then color the pictures.

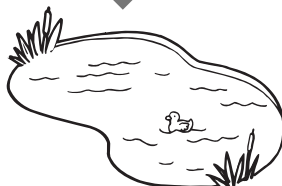

red •

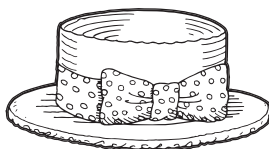

orange •

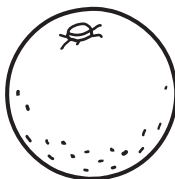

blue •

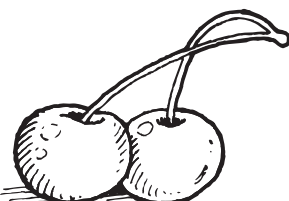

green •

yellow •

black •

Find the sight words in the puzzle and color them **green**.  
Write the words you did not color on the lines below to answer the riddle.
