

POP AND LEARN! Bubble Boards™

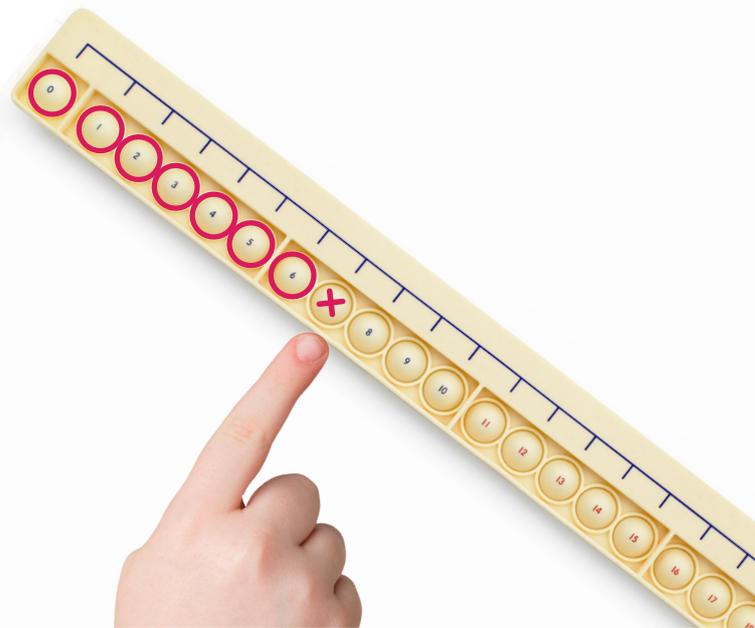

Number Line Activity Sheet JL675

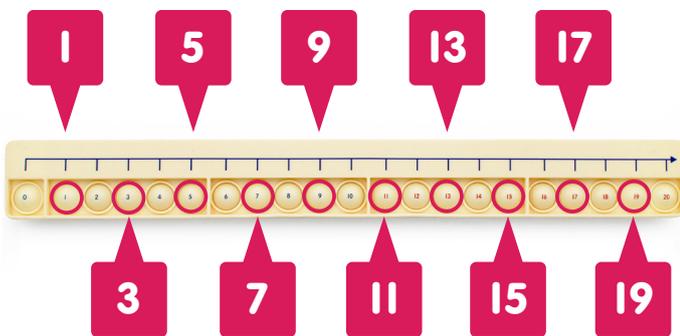

Just Before and After

Find a number on the number line. Pop down the number just before. Pop down the number just after. Repeat with other focus numbers.

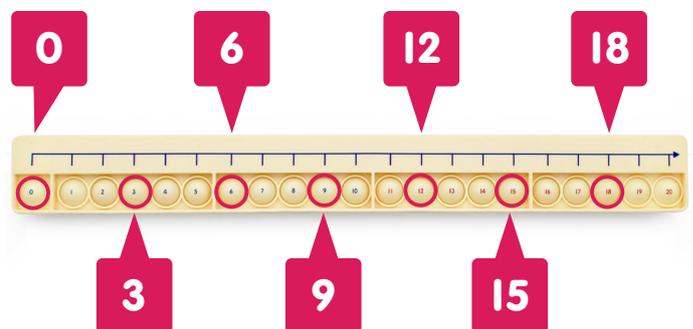

Greater than / Less than

Find a focus number on the number line. Pop down the numbers that come before. Pop down the numbers that come after. Repeat with different numbers.

Odds and Evens

Pop down the odd numbers on the number line. Discuss the difference between odd and even numbers. Pop down the even numbers, skip counting out loud as you pop.

Skip Counting

Use the number line to skip count in 2s, 3s, 4s and 5s. Pop the numbers and say them as you go.

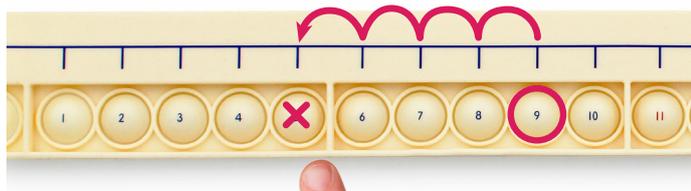

POP AND LEARN! Bubble Boards™

Number Line Activity Sheet

JL675

$$9 - 4 = 5$$

Subtraction Hop

From 9, hop back 4 and pop the number. What number do you get to? Practice hopping back from different numbers.

Dice Equations

Use two ten-sided die to make equations. Create either addition equations or subtraction equations and show these by popping on the number line.

$$6 + 4 = 10$$

$$4 + 6 = 10$$

Addition Hop

Make a 6 hop and a 4 hop, then pop down the number. Would you get the same answer if you made a 4 hop and a 6 hop? Write down the equation.
