

POP AND LEARN! Bubble Boards™

100s Activity Sheet JL676

Today's date is: 11/4/22

3, 6, 9, 12, 15...

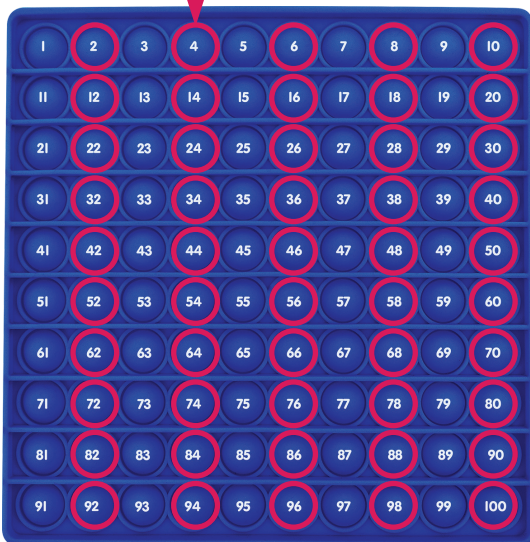

Lucky Numbers

Find the following numbers on the 100s Bubble Board: your age, street number, birthday, date.

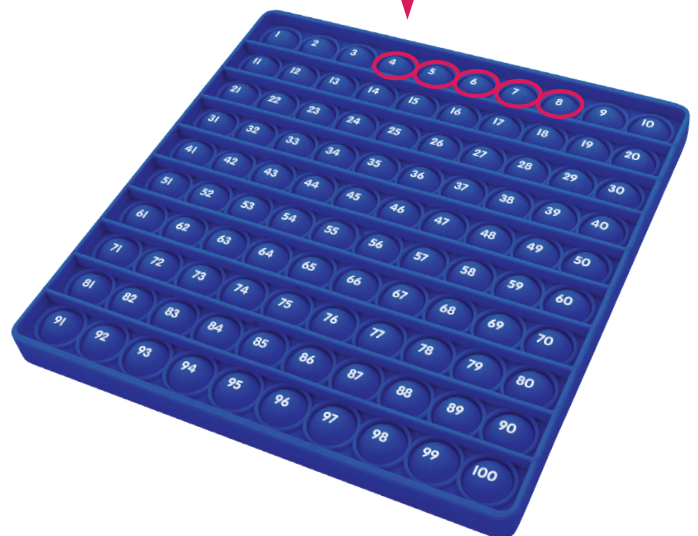

Skip Counting

Count in 2s, 3s, 4s, 5s, and 10s all the way to 100. How many lots of 5 in 100?

2, 4, 6, 8, 10, 12, 14, 16...

$4 + 5 + 6 + 7 + 8 = 30$

Odds and Evens

Pop down all the even numbers. Can you see a pattern?

Number Add Up

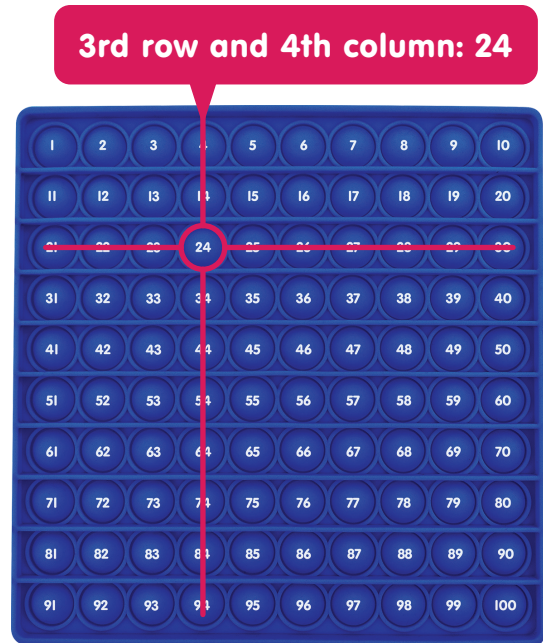

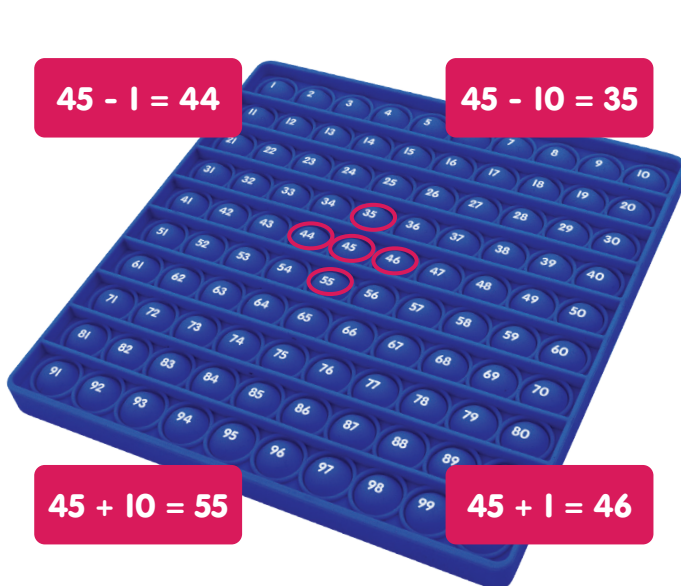

Choose 2 numbers. Pop down all the bubbles between the 2. Write the equation.

POP AND LEARN! Bubble Boards™

100s Activity Sheet JL676

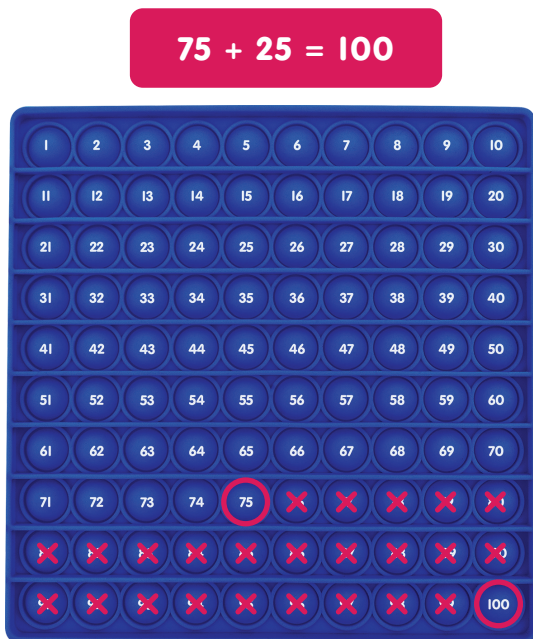

Moving All Around

Choose a number in the middle of the Bubble Board. How do we move one bubble to the left? To the right? Up? Down? Write the equation.

Rows and Columns

Choose a row and a column. What number is in the 3rd row and 4th column? 5th row and 8th column?

Guess My Number

One player writes down a number and the other play has to guess it by asking mathematical questions. Is it greater than 50? Is it an even number? Does it contain a 4? See how many questions it takes before you work out the number.

Number Bonds to 100

Pop a random number on the 100s board. How many more to make 100? Write down the equation.
