

BRAINBOX JEOPARDY

OBJECTIVES

- Enhance learning of BrainBox categories
- Master facts about BrainBox categories
- Teamwork
- BrainBoxes are available in a variety of topics*

*Indicates STEM and/or Common Core objectives

GRADES

3-5

ESTIMATED TIME

1 hour

MATERIALS NEEDED

- [BrainBoxes](#) (recommend minimum of three sets)
- Whiteboard and marker

SETTING THE STAGE

Prep: create a Jeopardy board (see example below) on the whiteboard

PROCEDURE

Put students in teams of four or more players

Team 1 chooses a category and point value.

Teacher draws a card from corresponding BrainBox and shows it to the team for 10 seconds.

Teacher reads the question that corresponds to their point value (10-1, 20-2, 30-3, etc)

After a category and point value are selected, it is out of play for any other team, regardless if it was answer correctly or not.

BRAINBOX JEOPARDY

PROCEDURE

Team 1 continues to play until they get an answer incorrect. They play passes to the next team.

Play ends when there are no more categories/points to choose. The team with the most points wins the game.

FOLLOW UP

Review any cards that were answered incorrectly.

Ask teams if they have any feedback about the game (difficulty, new facts that surprised them, etc).
