

Teacher Supplement

GOD'S
DESIGN®

Human Body

for Beginners

Teacher Introduction

Welcome to God's Design Science for Beginners! God's Design for Life includes *Plants, Animals, and Human Body*. Each set includes a student textbook and a teacher supplement.

The student textbook is broken up into six units of several lessons each, 35 lessons total. Each lesson includes a section to read, vocabulary words to trace, review questions, and one or more activities, which may be a pen-on-paper activity, a Scripture verse to trace, or a hands-on experiment. Each unit concludes with a vocabulary review.

The teacher supplement includes the answer keys for any puzzles, answers to the review questions, and additional activities and experiments you can do with your student. We greatly encourage you to do as many additional activities and experiments as possible, since children learn more and retain more when they are actively engaged with the material.

The supply list for each lesson is on the back cover of this teacher supplement. Be sure to consult this and gather the supplies you'll need in advance.

There is no set timeline for completing each book. You can decide how many days each week you want to do science. We suggest that you review previous lessons often to help your student retain the information they've learned.

We hope that you have a wonderful time of discovery as you explore the amazing human body that God created!

Unit 1—Body Overview

Lesson 1—The Creation of Life

ANSWER KEY

What did God use to make man? *Dust, dirt.*

In whose image did God create man? *God's image.*

Lesson 2—The Human Body

BODY SONG

Sing the song “Head, Shoulders, Knees, and Toes.” Practice pointing to each body part. Sing a little faster each time. See how fast you can sing and still touch each part of your body. If you are not familiar with this song you can listen to it on the Internet.

ANSWER KEY

What parts of your body help you to move? *Bones and muscles.*

Who created all the special parts of the human body? *God!*

Lesson 3—Cells

ANSWER KEY

What is the smallest part of your body? *Cells.*

What do you need to use in order to see your cells? *Microscope.*
