Why Alphabet and Numbers?

The activities in this book are designed to give practice in alphabet skills, letter recognition, initial sound awareness, number recognition, and counting. Completing these activities will promote early academic achievement.

SKILLS

- Uppercase letter identification
- Lowercase letter identification
- Letter/sound relationships
- Numbers 1-10
- Number words
- Counting
- Hand-eye coordination
- Fine motor development
- Following directions

HOW YOU CAN HELP SUPPORT LEARNING

- Work with your child in a quiet, calm setting.
- Read the directions to your child.
- Complete some activities together.
- Move on if a particular activity is too challenging and revisit it at a later time.
- Give helpful hints rather than solutions.

Find and circle the letters **A** and **a**.

Look for **B** and **b** to draw a path to help the bees find the hive.

A maze puzzle with various letters and flowers. The letters are arranged in a grid-like structure:

- Row 1: **B** h **B** a
- Row 2: **B** **D** **I** **c**
- Row 3: **b** **B** **b** **g** **a** **N**
- Row 4: **B** **b** **W** **A** **s** **z**
- Row 5: **Z** **b** **Z** **b** **B**
- Row 6: **B** **u** **b** **e** **P**
- Row 7: **F** **b** **b** **B** **b** **B** **B**
